

A/V Systems

MOBILE COMMAND & CONTROL

VIDEO DISTRIBUTION UNITS (VDU)

- ▶ Rugged, mobile, weather-proof
- ▶ Resize & move image windows across displays
- ▶ Intuitive touch panel or browser-based controls
- ▶ Small to large options available

Supported Input Devices

PCs/MACs

Smart Phones

Broadcast Receivers

Surveillance Feeds

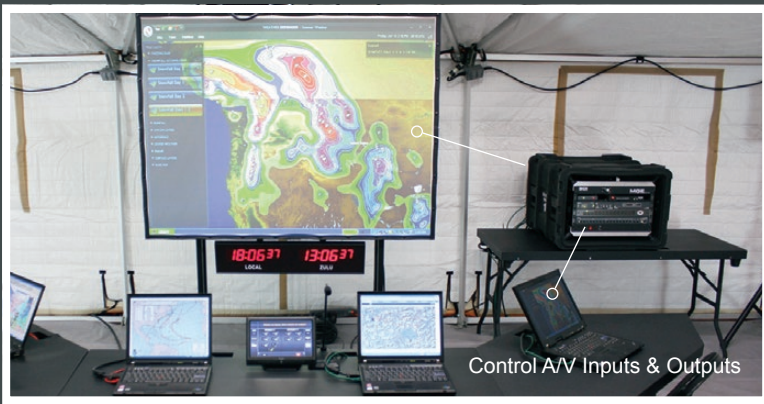

Tablets

DVD/Blu-Ray

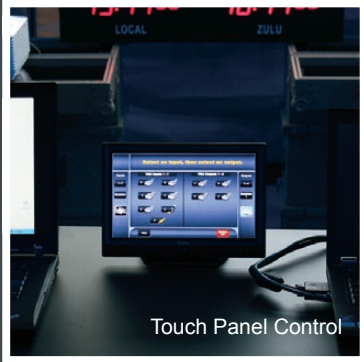

VIDEO & AUDIO DISTRIBUTION

SOI Video Distribution Units (VDU) manage the input and output of video and audio from sources to external display systems. Supported inputs include PCs, surveillance feeds, DVD/Blu-ray players, TV broadcasts and Video Teleconferencing (VTC). Our expertise in video processing ensures that our customer base is matched with the right technology for the job.

SOI has delivered hundreds of VDUs to our military, government agency and first responder customers providing them with the capability to engage with dynamic, video-rich Command & Control applications. SOI VDUs have been proven in the harshest conditions and are ideal for front line operations.

Economically Disadvantaged, Woman Owned, Small Business
ISO 9001:2008 Registered Company

HDMI

- HDMI as primary signal carrier
- Image/video switching & multi-image processors
- Cost effective and feature-rich

TWISTED PAIR

- CAT6 Twisted Pair as primary signal carrier for longer cable runs
- Image/video switching & multi-image processors

CUSTOM

We're happy to customize any of our standard systems or create an entirely new system to meet your mission requirements. Contact us today.
